

## *School Enrolment Management Plan*

Toowoomba North State School recognises as its prime obligation, the provision of access to an appropriate educational service for students whose principal place of residence is within the school's catchment area.

Because of enrolment capacity and growth, Toowoomba North State School may be unable to meet this obligation in the future unless action is taken to manage enrolments. The Principal must restrict the enrolment of out-of-catchment students to ensure in-catchment students can enrol at their local state school without requiring additional facilities.

### *Student enrolment capacity*

Toowoomba North State School has a maximum student enrolment capacity of 256 students.

The number of students entering Prep in any given year must not exceed 50 in 2 classrooms, unless there are more than 50 students enrolling from within the catchment area.

### *Local catchment area*

A school's local catchment area is the defined geographical area from which the school is to have its core intake of students.

Toowoomba North State School operates under an equidistant catchment area.

The [school's catchment map](#) is available from EdMap.

### *Enrolment policy and procedure*

The enrolment policy includes further information about in-catchment and out-of-catchment enrolments, acceptance and assessment processes, as well as any associated fees and decisions on enrolments.

For further information regarding School Enrolment Management Plans, please refer to the [School Enrolment Management Plans Procedure](#) or [contact the school Principal](#).

### *Gazettal date*

The School Enrolment Management Plan for Toowoomba North State School was gazetted on 30 August 2019.

The School Enrolment Management Plan is internally reviewed each year and, if required, updated to reflect any changes to student enrolment capacity and/or Programs of Excellence.
